PUBLIC HEALTH OFFICERS OF THE AUTHORITY

Medical Officer of Health:

*JAMES B. MORWOOD, M.B., F.R.C.S.I., D.P.H.

Deputy Medical Officer of Health:

GWEN R. TAPP, M.B., B.S., M.R.C.S., D.P.H., D.C.H.

Chief Public Health Inspector:

A.R.E. JARMAN, M.R.S.H., M.A.P.H.I.

Deputy Chief Public Health Inspector:

J.M. JEFFERY, Cert. R.S.I., M.A.P.H.I.

Public Health Inspectors:

L.M. EDWARDS, Cert. R.S.I., M.A.P.H.I.

** * E.E. HUNDY, Cert. R.S.I., M.A.P.H.I.

** C.R. SOUTHGATE, Cert. R.S.I., M.A.P.H.I.

(All the Inspectors are qualified Meat Inspectors)

Authorised Meat Inspectors:

B.J. JONES, M.Inst.M., A.M.R.S.H.

A.R. KESBY, M.Inst.M., A.M.R.S.H.

Public Analyst (Part Time):

J.A. PALGRAVE, B.Sc., F.R.I.C.

J.H. SHELTON, F.R.I.C. (Deputy).

(to 31.12.70)

Pests Officer:

J. McKEE

General Sanitary Assistant:

F.G. UPSON

Clerical Staff:

CHIEF CLERK: C.I. PHILLIPS

Clerk/Shorthand Typist

MRS. L.S. WRIGHT (to 15.2.70)

MRS. L.S. GARDINER (from 23.3.70)

Clerk:

S.R. WINSER (to 1.4.70)

MISS J.P. HARPER (from 13.4.70)

*Also Divisional Medical Officer, Surrey County Council.

** Holder of Certificate of R.S.H. Smoke Inspection.

* Holder of Certificate of Sanitary Science

Tel.: Burgh Heath 53430

PUBLIC HEALTH DEPARTMENT,
THE COUNCIL HOUSE,
BRIGHTON ROAD,
BANSTEAD.

June, 1971.

To the Chairman and Councillors of the
Urban District of Banstead.

MR. CHAIRMAN, LADIES AND GENTLEMEN,

I have the honour to submit my Annual Report for the year 1970, which has been prepared in accordance with the Department of Health and Social Security Circular 1/71.

The Health of the district remains good and the vital statistics compare favourably with those of the country as a whole.

As usual, the commonest cause of death was disease of the heart and circulatory system. There were 318 deaths under this heading. Until recently this had not been thought of as a preventable condition, but the evidence, as given by the Chief Medical Officer in his Annual Report for 1969, makes it clear that cigarette smoking is an important factor in this group of diseases as well as in cancer of the lungs and in bronchitis. Continuing publicity with regard to the danger to health of cigarette smoking is therefore more important than ever.

In conclusion I should like to thank the Chairman and Members of the Health and Housing Committee for their advice and support throughout the year, and the staff of the Public Health Department for their efficiency and helpfulness at all times.

I am,

Mr. Chairman, Ladies and Gentlemen,

Your obedient servant,

J.B.MORWOOD,

Medical Officer of Health.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Area 14,231 acres

| | 1968 | 1969 | 1970 |
|--|------------|------------|------------|
| Registrar-General's Estimate of Resident Population at 30th June | 42,100 | 44,790 | 44,290 |
| Census 1961 (23rd April) .. | - | - | 41,573 |
| Number of Inhabited Houses according to Rate Book at 31st December | 13,254 | 13,887 | 14,048 |
| Rateable Value at 31st December | £2,329,327 | £2,451,256 | £2,490,873 |
| Estimated Product of ld. Rate..... | £9,390 | £9,920 | £10,050 |

For the purposes of electoral representation, the Urban District of Banstead is divided into ten wards, namely, Banstead Village, Burgh Heath, Chipstead and Hooley, Kingswood, Nork, Preston, Tadworth, Tattenhams, Walton-on-the-Hill and Woodmansterne.

The altitude is high. Banstead Village is 530 feet, Chipstead 550 feet, Lower Kingswood 660 feet, and Walton-on-the-Hill 580 feet above sea level.

Green Belt and Common land provide large tracts of open space and generally the district is well wooded, undulating and of great scenic beauty.

The district is mainly residential and agricultural in character.

EXTRACTS FROM VITAL STATISTICS FOR 1970

| | | M. | F. |
|--|-----------|-----|-----|

*Based on inhabited house figures after deduction of institutional population of 4,044

SCARLET FEVER. Fourteen cases were notified, two more than in 1969. The illness continued mild and caused no deaths. The speedier return to school and non-exclusion of family contacts continued and is justified by the mildness of the disease.

DIPHTHERIA. No cases were notified for the twenty-fifth year in succession. Whether further cases do occur is now largely in the hands of parents, as the disease can readily re-appear and spread if the percentage of children immunised is allowed to fall.

Details of the number of children immunised against diphtheria during the year are as follows:-

Number immunised 452
 Number receiving reinforcing injections 710

SMALLPOX. No cases were notified.

Vaccination of infants under two years of age is our first line of defence against smallpox. The trend now is to vaccinate infants between the ages of one and two years rather than in the first year of life. The basal immunity provided enables re-vaccination later in life to be carried out with less risk of reaction. An increasing number of people travel abroad and vaccination is often required as a precautionary measure. Outbreaks of smallpox arise suddenly. Vaccination is our only safeguard as no treatment is yet known to be effective.

Details of the number of children vaccinated during the year are as follows:-

Number vaccinated 376
 Number re-vaccinated 106

INTERNATIONAL CERTIFICATES OF VACCINATION. The number of International Certificates authenticated during the year was 1,222.

MEASLES. 79 cases including one case in an institution were notified in 1970 compared with 83 cases in 1969.

The monthly distribution of notified cases for the five years 1966 to 1970 is shown in the following table:-

| | Jan. | Feb. | Mar. | Apr. | May. | June. | July. | Aug. | Sep. | Oct. | Nov. | Dec. | Total |
|------|------|------|------|------|------|-------|-------|------|------|------|------|------|-------|
| 1966 | 2 | - | 1 | - | 5 | 4 | 2 | 3 | 1 | 8 | 20 | 39 | 85 |
| 1967 | 70 | 161 | 217 | 139 | 8 | 9 | 5 | 10 | - | 2 | - | - | 621 |
| 1968 | - | 2 | - | - | - | - | 3 | 3 | - | - | 1 | 9 | 18 |
| 1969 | 14 | 8 | 8 | 16 | 4 | 7 | 17 | 3 | 1 | 3 | 2 | - | 83 |
| 1970 | - | 4 | 1 | 3 | 6 | 18 | 22 | 12 | 7 | 2 | 2 | 2 | 79 |

Number immunised ... 488

WHOOPIING COUGH. 5 Cases were notified in 1970.

All children should be immunised, preferably starting at six months. Immunisation will prevent or modify the illness in the majority of cases. This is best combined with diphtheria and tetanus.

Details of the number of children immunised against whooping cough during the year are as follows:-

| | |
|--|-----|
| Number immunised | 411 |
| Number receiving reinforcing injections | 77 |

DYSENTERY. There were three cases notified in 1970, the same number of cases as 1969.

TETANUS. Immunisation against tetanus is best combined with diphtheria and whooping cough antigens in infancy and given with diphtheria antigen at school entry and at age 10. The tetanus bacillus is a normal inhabitant of the intestine of the horse and immunisation by toxoid is an important precautionary measure for all who work in stables and on manured land. Infection is acquired through an abrasion or wound of the skin which may be so small as to escape notice. Immunisation with the toxoid avoids the prophylactic use of anti-tetanus serum to which some people are allergic. To be effective immunisation should be reinforced at intervals not exceeding five years. When anti-tetanus serum is required it is now customary to give the first injection of tetanus toxoid at the same time to be followed by two more doses at one month intervals in order to avoid the further use of anti-tetanus serum at some future date.

Details of the number of children immunised against tetanus during the year are as follows:-

| | |
|---|-----|
| Number immunised | 467 |
| Number receiving reinforcing injections | 835 |

ACUTE MENINGITIS. No cases were notified during the year.

ACUTE POLIOMYELITIS. No cases were notified during the year.

Details of the number of persons vaccinated against poliomyelitis during the year are as follows:-

| | |
|----------------------------|-----|
| Number vaccinated | 463 |
| Number re-vaccinated | 765 |

TYPHOID FEVER AND PARATYPHOID FEVER. No cases were notified during the year.

FOOD POISONING. Seven cases of food poisoning were notified in 1970. Four of these were single cases, three due to Salmonella Typhimurium and one due to Salmonella Group D.

There were two small family outbreaks. In one, due to Salmonella Typhimurium, one case was notified and two were otherwise ascertained. The other outbreak which was due to Salmonella Enteritidis involved two cases, both of which were notified.

NON-NOTIFIABLE DISEASES. The following non-notifiable infectious diseases were reported by head teachers during the year:-

| | |
|-----------------------|----------|
| Chicken-pox | 30 cases |
| German Measles | 9 cases |
| Glandular Fever | 1 case |
| Mumps | 44 cases |

School notifications are a useful index of the prevalence of non-notifiable diseases and are a basis for consultation with the School Medical Officers.

TUBERCULOSIS

On 31st December, 1970, there were on the register 250 cases of tuberculosis, of which 232 were pulmonary and 18 non-pulmonary.

Five new cases of pulmonary tuberculosis were notified as against ten in 1969. One case of non-pulmonary tuberculosis was notified.

The following table shows the age and sex distribution of new cases of tuberculosis notified in 1970.

| Age Periods | New Cases | | | | Deaths | | | |
|-------------|-----------|---|---------------|---|-----------|---|---------------|---|
| | Pulmonary | | Non-Pulmonary | | Pulmonary | | Non-Pulmonary | |
| | M | F | M | F | M | F | M | F |
| 0 | - | - | - | - | - | - | - | - |
| 1 | - | - | - | - | - | - | - | - |
| 5 | - | - | 1 | - | - | - | - | - |
| 15 | - | - | - | - | - | - | - | - |
| 25 | 1 | 1 | - | - | - | - | - | - |
| 35 | - | - | - | - | - | - | - | - |
| 45 | - | - | - | - | - | - | - | - |
| 55 | 2 | 1 | - | - | 1 | - | - | - |
| over 65 | - | - | - | - | - | - | - | - |
| Totals | 3 | 2 | 1 | - | 1 | - | - | - |

There was one death from pulmonary tuberculosis. The death rate for tuberculosis was 0.023 per 1,000 of population, compared with 0.033 per 1,000 of population for England and Wales.

Protective B.C.G. vaccination is offered to school children in the 13 year age group. During the year, 130 children were vaccinated.

The social care of patients as well as the medical is of the greatest importance and the voluntary service of our local representatives on the Epsom and Leatherhead and Banstead District Care Committee is greatly appreciated. The Committee works in close co-operation with the Medical Social Workers and provides extra nourishment, clothing, bedding, grants for occupational therapy and holidays for children, mothers and convalescent patients.

MASS X-RAY

A Mobile Unit attends each Tuesday from 7.30 to 8.30 p.m. at a site adjoining the Central Library, The Horseshoe, Banstead, for members of the public and for patients referred by their own doctor. During the year 1,758 persons were x-rayed.

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA

Environmental Services.

The Health and Housing Committee, acting under powers delegated by the Council, administer most of the local authority duties referred to in this Report. Improvement grants are dealt with by a sub-committee of the Finance Committee, the Town Planning Committee deal with the planning aspect of caravans and the Public Works and Highways Committee with main drainage and sewerage, refuse collection and disposal.

Personal Health Services.

These services include the care of mothers and young children, midwifery, home nursing, the home help service and the care and after care of persons suffering from illness. They are administered by the Surrey County Council through the Divisional Medical Officer, "Grayswood," 1, Castlefield Road, Reigate (Reigate 46843).

Hospital Facilities.

There are no general hospitals within the Urban District. The chief hospitals serving the district are the Redhill General Hospital; East Surrey Hospital, Redhill; Epsom District Hospital; Sutton Hospital; and St. Helier Hospital, Carshalton.

Specialised hospitals in the area are (1) Banstead Hospital, which serves part of the Greater London area and Banstead and also admits mental cases with tuberculosis from the whole area of the South-West Metropolitan Regional Hospital Board; (2) Netherne Hospital; (3) Tadworth Court, a country branch of the Hospital for Sick Children, Great Ormond Street; (4) Queen Elizabeth Hospital for Children, administered by the Board of Governors of the Hospital for Sick Children, Great Ormond Street; (5) The Zachary Merton Convalescent Home, a branch of the London Hospital; and (6) Shabden Park Hospital for the long term geriatric cases, administered by Epsom Group Hospital Management Committee.

Laboratory Facilities.

The Public Health Laboratory at Epsom and the laboratory at Sutton Hospital, are available for bacteriological and pathological examinations of specimens and samples.

For chemical analyses the services of the Public Analyst are employed.

417 infectious disease or food poisoning specimens and other samples were submitted to the laboratories from the Urban District and were made up of 222 faeces specimens and 195 others.

Ambulance Facilities.

The Surrey County Council Main Ambulance Control is at Walton Lodge Estate, The Horseshoe, Banstead.

In cases of emergency, for example accidents, an ambulance can be obtained by telephone by dialling '999'.

Requests for ambulances in all other cases can only be obtained through a doctor or a hospital and such requests are to be made to the Superintendent, County Ambulance Control, Walton Lodge Estate, The Horseshoe, Banstead, Telephone: Burgh Heath 53491.

Mortuary Facilities.

The arrangement for the use of the mortuary at Epsom District Hospital continued.

96 bodies were admitted to the Mortuary during the year.

Medical Examinations.

61 medical examinations of staff were undertaken during the year for fitness for employment, superannuation and sick pay purposes and for fitness to drive heavy goods vehicles.

Health Education.

On the occasion of the Information Day for new members of the Council, and for the benefit of groups of students and young people, visits were paid to the Department, when an exhibition was arranged on each occasion to demonstrate the activities of the Department.

National Assistance Act, 1948.

Section 47 - Persons in need of care and attention.

It was not necessary to take action under this Section in 1970.

Section 50 - Burial/Cremation.

No action was necessary under this Section during the year.

SANITARY CIRCUMSTANCES OF THE AREA

Water Supply

Water for domestic purposes is supplied to the district from the deep wells of the Sutton District Water Company and of the East Surrey Water Company, the former supplying Banstead Village, Burgh Heath, Kingswood, Norf, Preston, Tadworth, Tattenhams and Woodmansterne and the latter Chipstead and Hooley and Walton-on-the-Hill.

Two houses at Walton-on-the-Hill are supplied with water from the mains of the Epsom and Ewell Corporation.

(a) The water supply of the area and of its several parts has been satisfactory:-

(i) In Quality

Chlorination is applied to all sources of supply as chloramine and the water is softened to 9 degrees or less of hardness. The Sutton District Water Company and the East Surrey Water Company submit samples of water for examination by their Consultant Analysts at monthly intervals and also operate their own laboratories. Samples of the raw and treated waters are examined daily by their Chemists.

Nine samples were taken in the Urban District for bacteriological examination, and two for chemical examination.

Specimen analyses of samples of water taken during 1970 from the sources supplying the Urban District are as follows:-

Chemical

(Results in parts per million)

| | Pumping Stations at | | |
|--|----------------------------|--------|--------------------------|
| | S.D.W.Co. Woodmansterne | Purley | E.S.W.Co. Leatherhead |
| Reaction pH | 7.8 | 8.4 | 8.3 |
| Total Solids dried at 180°C. | 170 | 175 | 175 |
| Nitrogen in Nitrates | 5.0 | 5.9 | 6.5 |
| Nitrogen in Nitrites | 0.0 | 0.002 | 0.0 |
| Chlorine in Chlorides | 13 | 19 | 19 |
| Total hardness (grains per gallon) | 8.4 | 8.2 | 7.6 |

Bacteriological

Number of Bacteria on

Agar per c.c. for 3 days at 20°C.

0 0 0

Number of Bacteria on

Agar per c.c. for 1 day at 37°C.

0 0 0

Presence of B. coli in

100 c.c. 0 0 0

The waters are not liable to have plumbo-solvent action.

Lead is consistently absent from the water as drawn from the wells and after being in contact with lead pipe for overnight periods the concentration of lead (as Pb) is within the limit laid down in W.H.O. International Standards for Drinking Water, 2nd Edition, 1963.

(ii) In Quantity

The district received unrestricted supplies of high quality water throughout the year.

(b) No action was necessary in respect of any form of contamination.

(c) The number of dwelling houses and the number of the population supplied from public water mains are as follows:-

(i) Direct to houses

The Sutton District Water Company supplies approximately 12,465 dwellings, the East Surrey Water Company, 1,581 and Epsom & Ewell Corporation two dwellings. The total population supplied is 44,290.

(ii) By means of standpipes

All the dwellings in the urban district have a piped water supply therein except the majority of caravans which have a supply by standpipe.

(d) The natural fluoride content of the water is less than 0.1 p.p.m.

The existence of a deep well in the grounds of a derelict property at Woodmansterne was brought to light. It was found to be 171 feet deep to water level and the depth of water was over 45 feet. The attention of the Sutton District Water Company was drawn to this and they immediately took steps to seal the well head.

Rainfall

The following table shows the rainfall recorded at the rear of the Council House, Banstead, during 1970 :-

| <u>Month</u> | <u>mm</u> | <u>mm</u> | <u>Month</u> | <u>mm</u> | <u>mm</u> |
|--------------|-----------|-----------|--------------|--------------|----------------|
| January | 98.6 | (85.8) | July | 67.6 | (100.1) |
| February | 50.3 | (42.9) | August | 59.8 | (73.4) |
| March | 37.4 | (62.7) | September | 60.8 | (11.9) |
| April | 72.6 | (23.6) | October | 16.2 | (3.8) |
| May | 23.0 | (56.1) | November | 197.7 | (89.1) |
| June | 31.1 | (36.3) | December | 52.0 | (67.6) |
| | | | | <u>767.1</u> | <u>(653.3)</u> |

The figures in brackets are those of 1969 for comparison.

Drainage and Sewerage

The majority of premises in the district are served by public foul water sewers.

Generally, the sewers serving Chipstead and Hooley, Kingswood and Woodmansterne discharge to disposal works of the Greater London Council at Beddington and the sewers in the remaining part of the district discharge to disposal works at Worcester Park also now under the control of the G.L.C.

Foul water sewers, amounting to $\frac{1}{2}$ mile in length, were laid. The approximate length of foul water sewers is 102 miles. This excludes public sewers which, prior to 1st October, 1937, were known as combined drains.

At the end of the year consultations were still proceeding with the Greater London Council in relation to the inclusion of Banstead U.D. in the Greater London drainage area.

Where sewers are not provided, drainage of premises is by cesspools or septic tank installations. The number of cesspools is approximately 559, situate as follows:-

| | | | |
|-----------------------|-----|----------------------|----|
| Banstead Village | 23 | Preston | 11 |
| Burgh Heath | 7 | Tadworth | 16 |
| Chipstead & Hooley .. | 164 | Tattenhams | 52 |
| Kingswood | 206 | Walton-on-the-Hill.. | 65 |
| Nork | 3 | Woodmansterne | 12 |

During the year the drainage of 13 houses was connected to existing sewers.

The district is not sewered for the surface water drainage of premises, disposal of such water being to soakaways in the sub-soil.

Rivers and Streams

None in the Urban District.

PUBLIC CLEANSING

Cesspool Emptying

The Council undertake the emptying of cesspools, the service being free of charge where a public sewer is not available. Three cesspool emptiers were in use. The cesspool contents were discharged into the sewers at three disposal points, at Waterhouse Lane, Kingswood, How Lane, Chipstead, and Brighton Road, Lower Kingswood.

Closet Accommodation

Water closets are the general rule, but there are six pail closets in Kingswood, three in Chipstead, and one in Walton-on-the-Hill, three of these pail closets being at domestic properties and three at caravans. Emptying where necessary was undertaken by the Council twice weekly, the service being free of charge where a public sewer was not available.

Refuse Collection and Disposal

House refuse was collected by the Council weekly, except in the case of Banstead and Netherne Hospitals, from which the refuse was collected daily, Monday to Friday.

Disposal of the refuse was by means of controlled tipping at Rookery Farm, Lower Kingswood.

The refuse service was operated under the control of the Council's Engineer and Surveyor.

Civic Amenities Act, 1967

In accordance with this Act, a place has been provided at the Controlled Tip, Rookery Farm, Lower Kingswood, where residents may deposit refuse free of charge. Abundant use has been made of this provision and the amount of refuse tipped outside the entrance gates when the official tip is closed has proved an embarrassment.

Nevertheless despite publicity and appeals dumping of rubbish still takes place on roadsides and car parks adjoining common land which has to be constantly cleared by the Council.

The Act provides for a maximum fine of £100, on conviction for any **unauthorised** dumping. There were no prosecutions under this Act during the year.

SANITARY INSPECTION OF THE AREA

The number of inspections of premises and visits, etc., made in respect of the various duties **were** as follows:-

| | |
|---|-----|
| Agricultural Welfare Act | 1 |
| Animal Boarding Establishments | 1 |
| Betting, Gaming and Lotteries Act | 11 |
| Civic Amenities Act | 27 |
| Clean Air Act | 43 |
| Controlled Tip (Refuse Disposal) | 32 |
| Dangerous Structures | 6 |
| Drainage of Premises | 334 |
| Factories | 41 |
| Outworkers | 3 |
| Food Supply | 185 |
| Food and Drugs | 61 |
| Food Unsound | 616 |
| Food Poisoning | 8 |
| Ice Cream | 19 |
| Meat Inspection (Slaughtering) | 558 |
| Premises, Stalls and Vehicles | 260 |
| Slaughterhouse | 188 |
| Hairdressers' Establishments | 3 |
| Health Education | 10 |
| Housing: | |
| Inspections of Dwellings | 581 |

| Vermin: | |
| Flies, Bed-bugs, Fleas, Lice, Cockroaches, etc. | 115 |
| Rooms disinfested | 39 |
| Foxes | 21 |
| Pigeons | 3 |
| Rats and Mice - Visits | 2,130 |
| Squirrels | 1 |
| Wasps and Bees - Visits | 275 |
| Water Supply | 36 |

Public Conveniences

There are five public conveniences, provided by the Council, situated in Banstead Village, Lower Kingswood, Tattenhams and Woodmansterne, four being sited at public recreation grounds and one at Banstead Wood. In addition, by arrangement, the conveniences at a public house were available for use by the public at Lower Kingswood, but this use will terminate early in 1971.

Shops Act, 1969

The District Council is the Shops Act Authority for the Urban district.

There were 360 shops in the district. No Orders have been made in respect of Closing Hours or Partial Exemption.

Swimming Pools

No pools were available in the district for use by the public. There were three open air pools and four indoor pools at Schools, one indoor pool at office premises and it is known there are a number of private open air pools at residential premises.

Thirty-eight visits of inspection were made during the year and sixteen samples submitted for bacteriological examination. The results of two were unsatisfactory. These were followed up until satisfactory.

Scrap Metal Dealers

Two persons resident in the district were registered as scrap metal dealers.

Offensive Trades

There were no trades of this type in the Urban District.

Complaints

The complaints received totalled 1,334. They related to a wide variety of subjects.

Employment Agencies

One such Agency at Lower Kingswood was licensed by the Surrey County Council.

Massage Establishments

The provisions of Part IV of the Surrey County Council Act, 1931, relating to the registration and management of Massage Establishments, are in operation. There were five such establishments in operation within the Urban district.

Riding Establishments Act, 1964

Mrs. K. Cole-Powney is the Veterinary Surgeon appointed by the Council under the Act to visit and report upon the riding establishments in the district.

The proprietors of ten establishments were licensed by the Council during the year.

Thirteen inspections of these establishments were made by the Veterinary Surgeon, the number of horses being:-

| | |
|--------------------|------------|
| For Hire | 82 |
| At Full Livery ... | 97 |
| At Half Livery ... | 15 |
| Other | <u>20</u> |
| Total | <u>214</u> |

In addition 28 visits were made by the Public Health Inspectors to these establishments.

Animal Boarding Establishments Act, 1963

The proprietor of one establishment was licensed in 1970, for boarding of dogs.

Agriculture (Safety, Health and Welfare Provisions) Act, 1956

The duties of a local authority under this Act relate only to sanitary conveniences for the use of workers employed on agricultural units.

No action was necessary under this Act.

Factories

The factories in the district are small in character. They include builders' premises, boot repairers, manufacturers of food, motor repairers, bakehouses, laundries and manufacture of electrical equipment and small tools.

A small amount of outwork is carried on in the district, such outworkers being employed in the making of wearing apparel, boxes, and lampshades for firms mostly in the London area.

Prescribed Particulars of the
Administration of the Factories Act, 1961

PART I OF THE ACT

1 - INSPECTIONS for the purposes of provisions as to health (including inspections made by Public Health Inspectors).

| Premises (1) | Number on Register (2) | Number of | | |
|---|---------------------------------|--------------------|---------------------------|--------------------------------|
| | | Inspections (3) | Written notices (4) | Occupiers prosecuted (5) |
| (i) Factories in which Sections 1,2, 3,4, and 6 are to be enforced by Local Authorities | 6 | 1 | - | - |
| (ii) Factories not included in (i) in which Section 7 is enforced by the Local Authority | 94 | 23 | 2 | - |
| (iii) Other Premises in which Section 7 is enforced by the Local Authority (excluding outworkers' premises) | 164 | 17 | 1 | - |
| Total | 264 | 41 | 3 | - |

2 - Cases in which defects were found

| Particulars (1) | Number of cases in which defects were found | | | | Number of cases in which prosecutions were instituted (6) |
|--|---|-----------------|--------------------------|--------------------------|--|
| | Found (2) | Remedied (3) | Referred | | |
| | | | To H.M. Inspector (4) | By H.M. Inspector (5) | |
| Want of Cleanliness (S.1) | 1 | 1 | - | - | - |
| Overcrowding (S.2).... | - | - | - | - | - |
| Unreasonable temperature (S.3) | - | 1 | - | - | - |
| Inadequate ventilation (S.4) | - | - | - | - | - |
| Ineffective drainage of floors (S.6)..... | - | - | - | - | - |
| Sanitary Conveniences (S.7) | | | | | |
| (a) Insufficient .. | 1 | 1 | - | 1 | - |
| (b) Unsuitable or defective | - | - | - | - | - |
| (c) Not separate for sexes | - | - | - | - | - |
| Other offences against the Act (not including offences relating to Out-work) | 1 | 1 | - | - | - |
| Total | 3 | 4 | - | 1 | - |

Outwork

(Section 133)

There are no factories in the Urban District employing out-workers.

(Section 134)

Premises where outwork is undertaken :-

| Nature of Work (1) | No. of premises where outwork is undertaken | Section 134 | | |
|---|---|---|-----------------------|---------------------|
| | | No. of instances of work in unwholesome premises (5) | Notices served (6) | Prosecutions (7) |
| Wearing apparel, Making etc. ... | 3 | - | - | - |
| The making of boxes or other receptacles or parts thereof made wholly or partially of paper | 2 | - | - | - |
| Lampshades | 5 | - | - | - |
| Total .. | 10 | - | - | - |

There are several research laboratories and premises in the district which are not factories to which the Factories Acts apply.

Offices, Shops and Railway Premises Act, 1963.

The number of premises registered at the end of the year was:-

| | Number | Persons Employed | General Inspection |
|---|------------|------------------|--------------------|
| Offices | 67 | 2,320 | 4 |
| Retail Shops | 170 | 747 | 44 |
| Wholesale Shops and Warehouses | 5 | 218 | 3 |
| Catering Establishments and Canteens | 32 | 346 | 15 |
| Fuel Storage Depots .. | - | 2 | - |
| | <u>274</u> | <u>3,633</u> | <u>66</u> |

Of the persons employed, 1,779 were males and 1,854 females.
The total number of visits made by the Inspectors was 111.

The attention of the occupiers of 7 registered premises was called to non-compliance with requirements of the Act as follows:-

| | Offices | Shops |
|--|---------|-------|
| Ceilings - unsatisfactory condition | - | 1 |
| Floors - unsatisfactory condition | - | 1 |
| Hoists/Lifts - examination and report required .. | 1 | - |
| Steps - defective handrail.. | - | 1 |
| Temperature - lack of heating | - | 1 |
| Walls - unsatisfactory condition .. | - | 3 |
| Washing facilities - lack of running hot and cold water | - | 1 |
| lack of soap and towels | - | 3 |
| lack of wash hand basin | - | 2 |

No applications were made for exemption from the provisions of the Act.

The number of accidents notified under the Act involving employees being absent from work for more than three days was nine. Eight notifications related to accidents in shops and one in an office. No accident was fatal.

It is the practice of the Department to investigate all accidents notified. Following a report to the Council in the case of an accident in the storeroom of a large shop it was decided to prosecute the proprietors under Section 16(4) of the Act for failing to securely fence an opening in the floor whilst building operations were in progress. An assistant accidentally fell into this hole causing injury.

The proceedings were pending at the end of the year.

Petroleum (Consolidation) Act, 1928

43 licenses were granted for the storage of petroleum spirit during the year, and the statutory fees were paid.

The routine inspections of storage sites to ensure that there is compliance with the licence conditions, and work entailed in supervising and testing the installation of new underground tanks, pumps, pipelines and electrical equipment, makes a considerable call on the time of the inspectors.

Consumer Protection Act, 1961

The Public Health Inspectors are authorised Officers for the purpose of the administration of the duties of the Council under this Act.

No formal action was necessary.

Pet Animals Act, 1951

Four premises in the district were licensed as Pet Shops.

Eradications of Bed-Bugs and Fleas

Seven infestations of fleas and one infestation of bed-bugs were dealt with successfully by insecticidal spray.

Prevention of Damage by Pests Act, 1949

The destruction of rats and mice continued as in previous years. The following infestations were dealt with:-

| | |
|-------------------|-----|
| Common rat | 316 |
| House-mouse | 147 |

The properties inspected totalled 654 and inspections and re-inspections numbered 2,130.

The duties of the Council under the Act relate to enforcement of the provisions thereof, but the Council provide a disinfection service which occupiers of premises can employ if they so desire. Treatment at private dwellings was free of charge but charges were made in respect of business premises on a cost basis.

These amounted to £397.

No infestation of ship rats was found.

Other Pests

From time to time advice was sought in regard to infestations of various types of pests - beetles, cockroaches, bats, crickets, ants, flies, moth larvae, wasps. When treatment was carried out a charge was made.

Clean Air Acts, 1956 and 1968

Notifications were received in respect of the installation of three furnaces under Section 3(3) of the 1956 Act.

There are no smoke control areas in the district.

Noise Abatement Act, 1960

Five complaints were received relating to noise. These referred to cockerels, chain saw, radio interference, motor bicycles, dish washing at a restaurant. All these complaints were investigated but did not result in any formal action.

HOUSING

Repairs

Houses not in all respects fit where repairs have been carried out under informal action ... 31

Council Housing

The number of Council houses, flats, etc., at 31st December, 1970 is as follows :-

| | Permanent Dwellings | | | | Temporary Bungalows |
|----------------------|---------------------|----------------------|-------------------|-------|---------------------|
| | Pre-War | Post-War to 31.12.69 | Built During 1970 | Total | |
| Banstead Village .. | 42 | 72 | - | 114 | - |
| Burgh Heath | 26 | 225 | - | 251 | - |
| Chipstead and Hooley | 24 | 140 | - | 164 | - |
| Kingswood | 70 | 48 | - | 118 | 38 |
| Nork | - | 319 | - | 319 | 50 |
| Preston | 46 | 187 | - | 233 | - |
| Tadworth | - | 7 | - | 7 | - |
| Tattenhams | - | 901 | - | 901 | - |
| Walton-on-the-Hill | 65 | 14 | - | 79 | - |
| Woodmansterne | 44 | 34 | - | 78 | 45 |
| Totals | 317 | 1,947 | - | 2,264 | 133 |

NOTE - The above table includes 86 Post-war Houses that have been sold.

In addition the Council own five occupied houses which existed on and at the time of purchase for housing purposes as follows:-

| | |
|-----------------------------|---|
| Banstead Village Ward | 2 |
| Burgh Heath Ward | 2 |
| Kingswood Ward | 2 |
| Tadworth Ward | 1 |

IMPROVEMENT OF HOUSES

Discretionary Grants

Sixteen applications for grant were approved. These related to six owner/occupied dwellings and ten tenanted dwellings.

The amount of grant paid during the year was £3,330 10s 0d in respect of eleven dwellings, grants for which were approved in 1968 (1), 1969 (2), 1970 (8).

Standard Grants

Three applications were approved. These related to owner/occupied dwellings.

A grant of £115. 15s Od was paid following the completion of works at one dwelling in respect of which a grant was approved in 1970.

As a result of improvement grants the following amenities were provided:-

| | |
|-------------------------------|----|
| Fixed baths in bathrooms | 12 |
| Wash hand basins | 12 |
| Hot water supplies | 11 |
| Internal W.C.'s | 11 |
| Sinks | - |

In addition to the grant applications many enquiries were received from owners anticipating a grant for works which proved to be outside the grant scheme. These are time consuming.

Qualification Certificates

The introduction under the Housing Act 1969 of a new system of converting controlled tenancies to regulated tenancies of dwellings which have been brought up to a satisfactory standard, by means of the issue of qualification certificates resulted in many applications being received for such certificates. Dealing with these applications involves a complicated and exacting procedure between Landlord, Local Authority, Tenant and the Rent Officer. The first full year's operation of this system has made a great demand upon the time of the inspectorial and clerical staff.

| No. of Applications for Certificates | | No. of Applications Refused | No. of Certificates Issued | | |
|--------------------------------------|-------------------------------------|-----------------------------|----------------------------|---------------|---------------|
| (a) Section 44(1) | (b) Section 44(2) Provisional | | Section 45(2) | Section 46(1) | Section 46(3) |
| 78 | 6 | 4 | 14 | 9 | 6 |

Loans for Purchase, Improvement and Repair of Houses

The Council's scheme continued to operate. Seventeen applications were dealt with.

Rent Act, 1968

No applications for certificates of disrepair were received during the year.

Movable Dwellings

There are five areas in the District where movable dwellings are prohibited by Court Orders obtained some years ago under Section 57 of the Surrey County Council Act, 1931.

The 150 caravan site at Lower Kingswood continued in use (planning consent and site licence expired on the 31st May, 1967). An appeal against enforcement notices was pending at the end of the year.

Following the obtaining of short-term planning approval, a caravan site licence, to run concurrently with the planning term, was issued in respect of an individual caravan.

At 31st December, 1970 the number of occupied caravans in the district was:-

| | Caravans | Sites |
|---|----------|-------|
| On licensed sites | 21 | 4 |
| On site where licence has expired | 153 | 1 |
| Gypsies | - | - |
| | <hr/> | <hr/> |
| | 164 | 5 |
| | <hr/> | <hr/> |

This excludes caravans exempt from licensing requirement.

INSPECTION AND SUPERVISION OF FOOD

Milk Supply

At the end of the year premises registered under the Milk and Dairies Regulations were as follows:-

| | |
|----------------------------|----|
| Distributors of milk | 22 |
| Dairies | 1 |

In respect of pre-packed designated milk, the following licences were in force.

| | | | |
|----------------------|-------------|---------------|--------------|
| "Ultra Heat Treated" | "Untreated" | "Pasteurised" | "Sterilised" |
| 14 | 4 | 13 | 8 |

Five samples of pasteurised milk were examined.

The Urban District is within the London area for the purposes of The Milk (Special Designations)(Specified Areas) Order, 1951.

Milk Supplies - Brucella Abortus

- (i) Number of samples of raw milk examined 11
- (ii) Number of positive samples found Nil

The Liquid Egg (Pasteurisation) Regulations 1963

There are no egg pasteurisation plants in the district.

Ice Cream

The number of premises registered for the storage and sale of ice cream is 82.

Manufacture of Sausages, Preserved Food, Etc.

Premises registered in respect of the manufacture of sausages, preserved food, etc. number 32 as follows :-

| | |
|-----------------------------------|----|
| Sausages | 12 |
| Hams | 8 |
| Sausages and Preserved Meats | 8 |
| Preserved Meats | 4 |

Poultry Inspection

- (i) number of poultry processing premises within the district - 5 (all small)
- (ii) number of visits to these premises11

The establishments are farms or smallholdings and as far as poultry processing is concerned are very small, making supervision difficult as killing times are irregular and notification of times of slaughter is not obligatory. No special action was called for during the year.

Slaughtering of Animals

The slaughterhouse license for the private abattoir at Walton-on-the-Hill was renewed. The amount of slaughtering continued to escalate.

Details of slaughtering (in cattle units) for the last three years are as follows :-

| | 1968* | 1969 | 1970 |
|-------------------------------|---------------|---------------|---------------|
| Cattle (excluding Cows) | 5,032 | 4,701 | 2,882 |
| Cows | 1,275 | 3,723 | 5,579 |
| Calves | 56 | 16 | 54 |
| Sheep | 4,897 | 9,396 | 6,560 |
| Pigs | 431 | 1,127 | 5,350 |
| Goats | - | - | 1 |
| | <u>11,691</u> | <u>18,963</u> | <u>20,426</u> |

* From February

1 Cattle Unit = 1 Bovine or 3 Calves or 5 Sheep or 2 Pigs or 5 Goats

The income from meat inspection charges was £2,271. 12s 6d

Carcases and Offal Inspected and Condemned in Whole or in Part

| | Cattle Excluding Cows | Cows | Calves | Sheep & Lambs | Pigs | Goats | Horses |
|--|-----------------------------|-------|--------|------------------|--------|-------|--------|
| Number killed | 2,882 | 5,579 | 163 | 32,802 | 10,700 | 4 | - |
| Number inspected .. | 2,882 | 5,579 | 163 | 32,802 | 10,700 | 4 | - |
| All diseases except Tuberculosis and Cysticerci | | | | | | | |
| Whole carcasses condemned | 1 | 3 | 10 | 20 | 12 | - | - |
| Carcases of which some part or organ was condemned ... | 1,559 | 4,277 | 41 | 18,973 | 6,001 | - | - |
| Percentage of the number inspected affected with disease other than Tuberculosis and Cysticerci | 54.5 | 76.7 | 31.3 | 57.8 | 56.2 | - | - |
| Tuberculosis only | | | | | | | |
| Whole carcasses condemned | - | - | - | - | - | - | - |
| Carcases of which some part or organ was condemned ... | - | - | - | - | 443 | - | - |

| | Cattle excluding Cows | Cows | Calves | Sheep & Lambs | Pigs | Goats | Horses |

| Carcases sub- mitted to treatment by refrigeration | - | - | - | - | - | - | - |
| Generalised and totally condemned ... | - | - | - | - | - | - | - |

Food Supply

Food trades and premises in the district are as listed below. The manufacture of food is minor in character principally relating to bread, flour confectionery and sausages.

| | No. |
|--|-----|
| Bakers and Confectioners (Flour)..... | 8 |
| Butchers | 25 |
| Canteens | 19 |
| Cafes and Catering Establishments | 18 |
| Chemists | 14 |
| Clubs, Halls, etc. | 29 |
| Confectioners (Sugar) | 35 |
| Fishmongers (Wet and dried)..... | 4 |
| Fishmongers (Fried) | 1 |
| Fruiterers and Greengrocers | 22 |
| Grocers and Provision Merchants | 50 |
| Grocers and Provision Merchants (Wholesale) | 1 |

| | No. |
|-----------------------------|-------|
| Institutions, Schools, etc. | 50 |
| Licensed Premises | 23 |
| Off Licenses | 15 |
| Frozen Foods (Wholesale) | 1 |
| | <hr/> |
| | 315 |
| | <hr/> |

Complaints respecting food related to the following:-

Apples - as to taste. Apricot Jam - containing small object and specks. Apricot Pie - mouldy. Beef (Blade Bone) - containing finger nail clipping. Bread (10) - as to foreign matter, staleness, mould, black smear on surface, foreign body, containing wood. Candied Peel - foreign body embedded in sugar. Can of soft drink - smelling of paint. Cottage Cheese - mouldy. Eccles Cake - containing safety pin. Fairy Cakes - containing foreign matter. Full Cream Milk Food - causing baby to vomit. Ham - phosphorescent. Ham (canned) - smelling and liquified. Ice Cream - oily looking. Liqueur Chocolates - containing maggots. Liver - unsound. Madeira Cake - mouldy. Milk (5) - as to sourness, dirty bottle, containing insects. Minced Beef - as to objects like teeth. Pork Sausages - greasy smear. Potatoes - damaged. Breakfast Cereal - containing weevil. Rhubarb (canned) - internal lacquered lining of can corroded. Sausage Roll - containing hair grip. Steak and Kidney Pie - containing paper. Toasted Cheese Sandwich - mouldy. Tomatoes - split. Turkey - causing illness. Wheelks - tasting bad.

All these complaints were fully investigated and pursued with both the retailers and manufacturers of the article affected and the opportunity taken to impress upon all concerned the importance of proper storage, turnover and handling of food for sale.

Legal proceedings were authorised in five cases subject to the advice of the Council's Solicitors. In one instance after considering the facts and the evidence the solicitors advised against prosecution and in this case a warning was given.

The manufacturers of the sausage roll containing a hairgrip were prosecuted and this resulted in a fine of £35. plus £20 costs.

Legal proceedings were commenced in the following instances but the hearings of the cases were pending at the end of the year.

Breakfast Cereal with insect infestation and webbing.
Wheatmeal sliced bread containing charred wood and a part of a nail.
Can of soft drink with abnormal taste and smell.

There was a distinct escalation of food complaints reported to the Department which indicates either a greater food consciousness on the part of the consumer public or the tremendous increase of attractive mass produced food and the consequent marketing risks. Nevertheless the percentage of faults in comparison with the volume of food marketed is extremely small and reflects credit on the efforts of reliable food manufacturers in presenting their wares.

Unsound Food

The following was surrendered as unfit for human consumption:-

| | Cans | Jars | Pkts. | lbs. |
|------------------------------|--------------|-----------|--------------|-------------|
| Beverages | 2449 | - | 3 | - |
| Cereals | 83 | - | 61 | - |

| Tea | 1 | 1 |
| Tomato Puree | - | 1 |
| Tonic Wine | - | 1 |
| Wine Vinegar..... | - | 1 |
| TOTAL | 11 | 108 |

All the samples were reported as genuine except the following:-

| Article | Irregularity | Action Taken |
|----------------------|--|---|
| Almond Ring. | The nut used on the article was not almond. | When the matter was taken up with the local manufacturer it was found that normally only almond flakes are used in the making of this confectionery but by an oversight the sample submitted consisted partly of other chopped nuts. No further action was taken. |
| Cream | Deficient in milk fat to the extent of 1.5%. | A formal sample was taken which was found to be satisfactory. |
| Instant Skimmed Milk | Contained 8% excess moisture. | The remaining stock was removed from the local shop by the manufacturer immediately. Investigations were instituted by the firm and samples taken of the same batch proved to be satisfactory. |

| Article | Irregularity | Action Taken |
|---------------------|---|---|
| Salad Dressing Mix. | The article required the addition of vinegar and mayonnaise to complete the mix, but the necessity to make the addition was not stated on the front of the container. | This was an American product and the attention of the importers was drawn to the matter. This resulted in new labels being printed which conform with the labelling of Food Regulations 1970. |

URBAN DISTRICT OF BANSTEAD

List of Surrey County Council Clinics

MATERNITY AND CHILD WELFARE

South-Eastern Division of the County (Divisional Medical Officer, "Grayswood", 1 Castlefield Road, Reigate.
Tel.: Reigate 46843)
